*" . . . ask not what your country can do for you; ask
what you can do for your country."*

Administration

To the Class of 1964:

You are about to leave Homestead for other fields of endeavor. We hope that you are well prepared to meet the challenges which you will be forced to answer. Please remember to be proud and unbending if honest failure should come your way, and to be gentle and humble in your success. Stand tall and straight in the face of adversity, but remember to have compassion on those who fall. Realize that you must master yourself before you attempt to master others. Seek not the way of luxury and comfort, but face the stimulation of challenge and difficult goals. Reach towards the future, but never neglect the past with its lessons of wisdom; approach all problems and decisions with an open mind and a willingness to look at all the facts and all sides of the question.

As you leave Homestead our congratulations and best wishes are extended to you. We have enjoyed working with you, and we sincerely hope that you will come back to see us from time to time. Many of our dreams and aspirations for the future are depending on you. Your strength and wisdom will carry us through.

Our student council this year has been very active. Several meetings were held during the summer to decide on activities for the 1963-'64 school year. In addition to sponsoring a mixer and the Christmas dance, the council also sponsored a car wash and a powder puff football game to raise money for the Highlander memorial.

Fall

To most students, Fall signifies the start of another year of school; but most Highlanders thought in more specific terms. To Cathie Chryzan it meant a return to old friends with tales of Chile to tell them. To the boys on the team it meant football season. To the freshmen it meant a new start in a new school. Fall also meant more firsts for Homestead: the first debate team was formed and proved a success, the honor study hall was given a try, and a powder-puff football game was played. To all, Fall meant getting into the true Highlander swing of things.

You hear orders being given to stage hands and jittery players; you hear a creak and groan as the house leans to one side; someone gives a slight cry of anxiety with the discovery that a prop is missing; players settle themselves in the last few seconds before curtain time. Then, the curtain rises on: "The Great Big Doorstep"

Winter

As the snow began to fall, thoughts turned to basketball, remember a certain player on our opposing team who helped us make our baskets?, and wrestling, the team that sent two boys to the regional meets and one to the sectionals. Clubs, which were formed in the fall, got into full swing. Some of the clubs gave dances and some held special events for their members. Although there was a lot of fun, students also had semester finals to look forward to.

Debate started at Homestead last October. Before participating in contests, the students made several trips to watch college debates on this year's topic, Medicare. The first meet was held in November and Homestead won 4 and lost 8 in three rounds of class C debate. In January, Lee DeArmond, Rick Wegner, Mary Decker, and Bob Burton were chosen to be in the conference debate. The won second place. The team compiled a 4-2 record in the District tournament and advanced to the Sectionals. Everyone agreed that the team had a most successful first season.

Summer

As summer weather begins, another school year ends. Harbor lights, the junior prom, wound up the social activities for the year. The seniors started counting the days until graduation. And after graduation--another beginning.

Cathie Chrzan . . . our ambassador to Chile

This last summer I was an AFS'er in Temuco, Chile, and it was the most valuable experience of my life. Names on a map are now actual places to me: stores, school, chuches, parks, and most important--people. My Chilean family, the Figueroas, helped me obtain a good cross-sectional view of the country. They proved to me that the basic ingredient of family love was the same 6000 miles from my own home.

The market places are the Chilean equivalents to our supermarkets. Items ranging from flowers to chickens can be purchased there, and neighbors and friends come to chat as well as to buy.

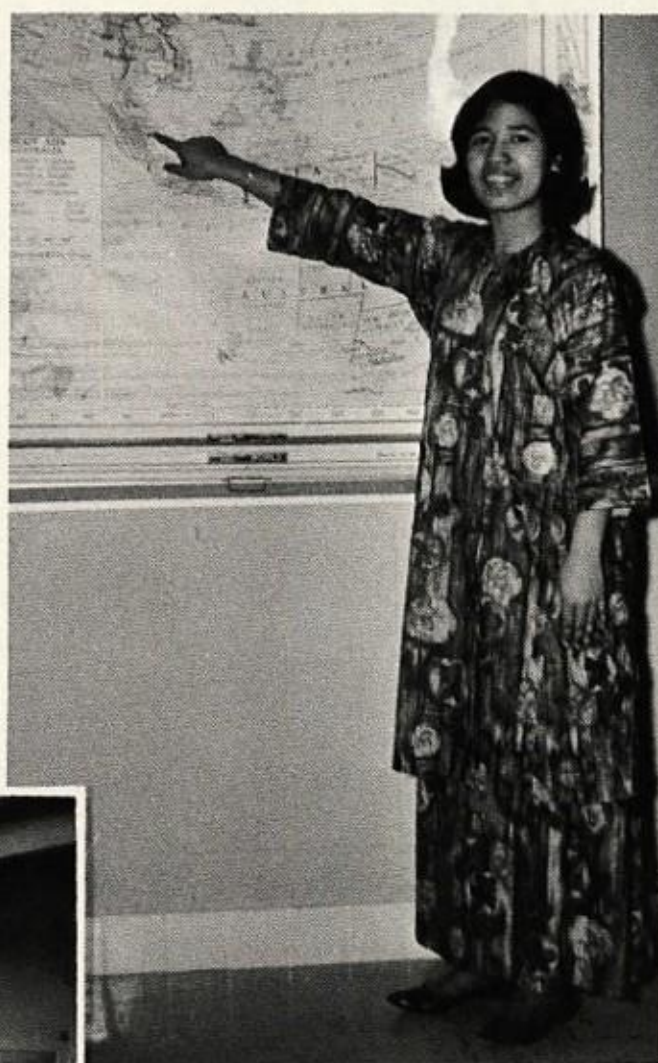

My sisters Eliana, Gisela, and I traveled to various other cities. This is in a park in Concepcion, the second largest city in Chile.

Student strikes are quite common in Chile. These students are marching around the main plaza in Temuco. The building in the background is a movie theater.

Sometimes I wonder how people of different races, religions, and customs can live in peace and harmony. Somehow, they manage to do it in Malaysia. It is not surprising then, to find a great number of intermarriages in our country. I, myself, am a product of an intermarriage. My mother is an Arab whereas my father is a Sumatran. There are seven other children beside me. We live at 1435, Jalan Abdul Rahman Andak, Johore, Bahru, Johore, Malaysia. Come and visit me sometime!

This is my mother, myself, and my grandmother in front of our house.

These are my sisters, Halimah, Hendon, and Halijah.

This is my brother, Abdul Shukor and myself in front of a Jambu tree. It has a fruit similar to a strawberry.

Janette Simons

The beautiful island gem of Barbados lies off the mainland of South America. It is noted for its flying fish, sugar-cane, cricketers, and most of all, the warmness and friendliness of its 246,000 inhabitants. Tropical Barbados, is a winter sonderland for those who seek relief from the cold winters like those of Wisconsin. It is with a little sadness and a wonderful memory that I return to my home at: Principal's Residence, Government Industrial School, St. Philip, Barbados.

St. John's Church is one of the most beautiful churches in Barbados.

My home is an old plantation house, and is characteristic of many of the old homes in Barbados.

Henning Hirsch

Norway, the country of smiling people and midnight sun, is located as the northernmost country in Europe. It is long and thin with mountains, farms, and wonderful beaches. The climate is similar to that of Wisconsin. Skiing and skating are the national sports--remember the Olympics! The Norwegian people with their friendliness welcome anyone who wants to see what the land of fiords is like.

My home is at
Elvefaret 13
Oslo 7, Norway.

Even the best skier can
fall on a slalom hill.
Cross-country skiing is
also very popular in
Norway.

This is my family.
My mother is a
housewife. My sis-
ter Stine, is in
high school. My
father is a mechan-
ical engineer.
